

RYAN STEED

532 20th St. NW, Washington D.C. 20006

rsteed11@gmail.com • rbsteed.com

EDUCATION

George Washington University

B.S. Computational Economics

Minor in Philosophy

August 2017 - May 2020

GPA: 3.99

RESEARCH EXPERIENCE

George Washington University

Research Assistant, Department of Computer Science

September 2018 - Present

- Under Dr. Aylin Caliskan, research fairness and bias in machine learning; motivated, designed, and conducted experiments to detect first-impression emotional bias in state-of-the-art deep learning models for face recognition.
- Under Dr. Rahul Simha, research evolution of scientific innovation; modeled knowledge transmission in patent citation networks and estimated the effect of policy on innovation over time.

Duke University

Research Assistant & Lead Modeler, Social Science Research Institute

May 2017 - January 2018

- Contributed to the design and training of a deep learning model to classify political actions reported in the news; presented at ISA academic conference.
- Coordinated development of social network analysis algorithms & random graph models for relationships between political actors; presented work to intelligence officers at the Pentagon.

University of North Carolina

Research Affiliate, Department of Political Science

August 2016 - May 2017

- Collaborated with Dr. Timothy McKeown to parse and analyze foreign policy web archives.
- Constructed Python web crawler to scrape and standardize digital documents from several sources.

PROFESSIONAL EXPERIENCE

GW Innovation Center

Virtual Jane Project Manager & Technology Fellow

September 2017 - Present

- Co-founded George Washington University's first Innovation Center and student-run maker space.
- Serve as product owner and scrum master for mobile virtual reality educational app for the Jane Goodall Institute; hosted Dr. Jane Goodall at GWU for a motion capture scan and creative pitch.
- Recruited and managed for a team of 10 student animators, developers, and content creators; fundraised over \$10,000 for VR equipment.

Capital One

Data Engineering Intern

June 2019 - August 2019

- Designed and tested novel cluster sampling algorithm for active learning in analyst-in-the-loop cybersecurity models.
- Leveraged natural language processing tools to write automated query rules for 13 new cyber threat alerts.

Magic Number

May 2018 - August 2018

Machine Learning Engineer

- Researched, designed and tested machine learning classification and clustering models to categorize patent documents into packaged sectors for clients.
- Implemented virtual machine microservice stack to schedule machine learning training and execution, manage model hyperparameters, and serve machine learning predictions.

PUBLICATIONS

- **Steed, R.**, Caliskan, A., “Machines learn appearance bias in face recognition,” submitted, 2020.
- **Steed, R.**, “Evolution of innovation in patent citation networks,” Poster presented at GW Research Days, 2019.
- **Steed, R.**, “AI is Heideggerian enough, but can it be authentic?” Manuscript, 2019.
- Erdemandi, M., Augustine, R., Zhao, L., **Steed, R.**, “Expansion of automated event coding for better international security analysis,” in *International Studies Association South*, 2017.
- Rivera, W. A., Rogers, A., **Steed, R.**, “The practice and promise of open source intelligence and computational security studies,” in *International Studies Association South*, 2017.
- **Steed, R.**, Rivera, W. A., “The derivative relational attribute graph model for link prediction,” Manuscript, 2017.

FELLOWSHIPS & GRANTS

Social Good Fellowship

September 2017 - Present

GW Innovation Center

Data MASTER Fellowship

May 2018 - May 2019

GW Mathematics And Statistics Training, Education, and Research Program

Sigelman Undergraduate Research Enhancement Award

October 2018, 2019

George Washington University

HONORS & AWARDS

- Dean’s List, George Washington University, *2017-18 & 2018-19*
- Presidential Scholarship with Honors, George Washington University, *May 2017 - Present*
- 2nd Prize, Politics & Economics, GW Research Days Poster Competition, *April 2019*
- Strasser Writing Prize, GW Honors Program, *January 2018*
- National Merit Scholarship, *May 2017*

PRESENTATIONS

- “Machine Learning Document Classification,” *GW ACM*, November 2018.
- “The Practice and Promise of Open Source Intelligence and Computational Security Studies,” *International Studies Association South*, Orlando, 2017.

SKILLS

- Python, Java, Scala, C, JavaScript, R, HTML5/CSS/jQuery, PHP; AWS EC2, AWS RDS, Mongo, PostgreSQL; Debian, Ubuntu; Pandas, Keras, Tensorflow, Scikit-Learn, PySpark
- Project Management, Public Speaking, Design Thinking, Agile/Scrum, JIRA, Github, Slack
